CAREER OBJECTIVE

Detail-oriented Full Stack Developer skilled in building scalable, performant web applications with modern JavaScript frameworks. Experienced in front-end design, back-end REST API architecture, database management, and state optimization to deliver smooth user experiences.

TECHNICAL SKILLS

Languages & Frontend: JavaScript (ES6+), HTML5, CSS3, React.js, Context API, Tailwind CSS, Bootstrap, Redux
Backend & Database: Node.js, Express.js, MongoDB, MySQL, RESTful APIs

PROJECTS

Online Food Delivery System – Full Stack Food Delivery Platform

01/2026 – 02/2026

Full Stack Web Application

A full –stack food delivery platform enabling users to discover restaurants, browse menus, customize orders, track deliveries, and securely manage their accounts and payments.

- Engineered responsive restaurant and menu interfaces with MongoDB & Express API integration for seamless food ordering and order management
- Implemented secure authentication, dynamic restaurant filtering, cart management, order tracking and optimized database queries for efficient performance.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS
